What is it about?

The EWEI Intensive Training in EU Affairs is an encompassing, highly flexible programme which enables its participants to gain first-hand knowledge and understanding of EU politics.

It first offers an online Model EU supported by a training platform through which participants acquire an overall understanding of EU affairs through history, institutional affairs and a dedicated political focus for each course.

Secondly, participants can take part to an onsite simulation game held in Brussels, where they can experience from within the challenges, constraints and opportunities EU officials experience in their daily work; a type of knowledge books cannot convey.

Testimonies

Henry Robinson, awarded Best Delegate of the Online Model EU (1st edition)

Participating in the EWEI virtual model EU was a thrilling experience. The EWEI created a unique platform where I could put my academic knowledge in political science into practice, as well as meet over 100 like minded participants. The simulation has equipped me with an in depth understanding of The EU's institutions, as well as the ability to analyse several negotiating positions and arrive at a final agreed resolution. The EWEI also gave me the opportunity to engage with high profile figures in the field of European politics such as president of the European parliament David Sassoli. I'd highly recommend this course to anyone looking to build a career in politics and public policy. A brilliant experience with amazing people!

Ada Gavrilă, Honorable mention of the Online Model EU (1st edition)

From my point of view, the Model European Union Online 2020 has been definitively an amazing experience. Even though it has been the first time that such an event has been organized by the EWEI, I have noticed since the beginning that the whole staff is very well-organized and I admire their hard work and dedication to this project.

Héctor Peña Pedrero, Honorable mention of the Online Model EU (1st edition)

Joining the Model EU organised by Eastwest European Institute gave me the opportunity to become familiar with the internal and political affairs of the European Parliament, in a simulation that provides you an accurate immersion into the elected chamber for the representatives of the Member States. Definitely, an experience that is worth and recommended.

Sara Maniar, Honorable mention of the Online Model EU (1st edition)

It was a great pleasure to have taken part in the first Online Model EU conference. Students came together in order to address socio-economic and environmental issues faced by Europe in the light of the COVID-19 pandemic. EWEI has given me knowledge of the workings of the EU, confidence in taking part in group discussions and debates and it has provided me with the opportunity to form new friendships and connections with like-minded individuals.
